Model 581C - 10 character 2.0 dot matrix time, date, day, 1.0" zone labels, 3 zones

The 581 series time zone clocks have 10 character dot matrix LED displays that alternate between time, date and day of the week with white vinyl zone labels below. In addition, the 581 features user changeable color LEDs that can easily be changed. The 581 models there can be between 2 and 8 zones displayed at one time, however, the clock can display up to 12 different pages. For Example, a six zone clock can show four pages of time zone information. Likewise, a four zone unit can show six pages. You may choose between 12 or 24 hour time formats. Date formats include numeric, three character alpha numeric month, day of month, day of week and four digit year.

Each 581 clock comes standard with an OCXO oscillator, which is accurate to .06 seconds per year.

For easy clock management, an infrared (IR) remote control is included with every 581 model. An optional BRG Time Commander IR Touch Pad Remote control to use with all of your time zone clocks.
