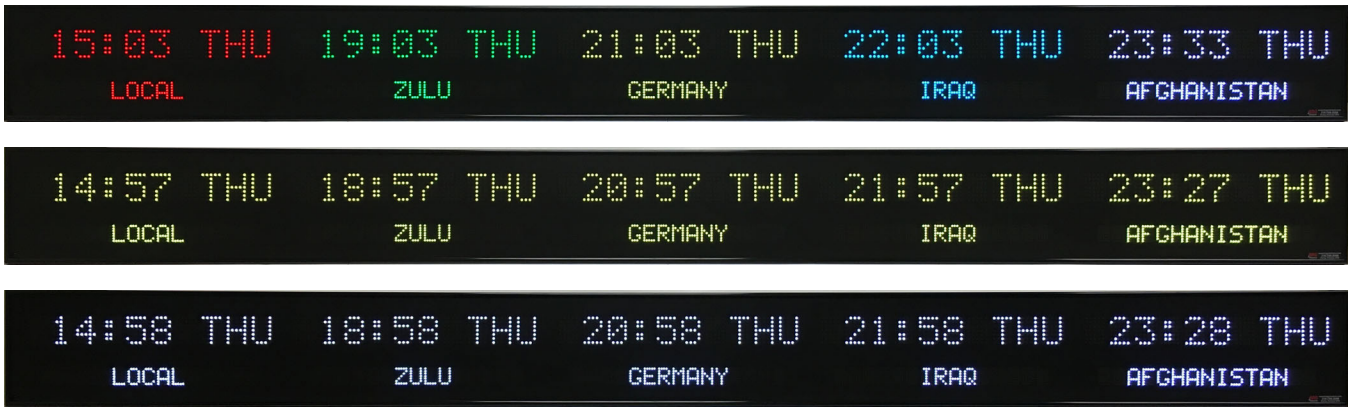
5910 Style Time Zone Clock



Model 5910
5910J - 1.2” time, 1.2” zone labels, 5 zone

The 5910 series time zone clocks have 10 character dot matrix LED time displays with a 15 character dot matrix digital zone label below. In many 5910 models, the clock can display up to 10 time zones through page flipping. For Example, a three zone clock can show three pages of time zone information. Likewise, a five zone unit can show two pages.

Each 5910 clock comes standard with an OCXO oscillator, which is accurate to .06 seconds per year.

For easy clock management, an infrared (IR) remote control is included with every 5910 model. An optional BRG Time Commander IR Touch Pad Remote control to use with all of your time zone clocks.

Every 5910 model includes your choice of an Ethernet or USB interface for easy time zone parameter control.
