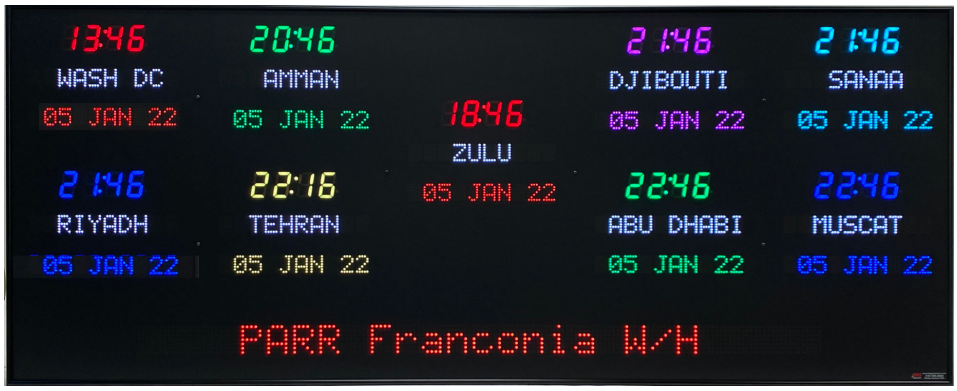
7329 Style Time Zone Clock



Model 7329A - 1.8” time, 1.2” zone labels & character date, 9 zone with a 48” color moving message display

The 7329 series time zone clocks have user changeable multi-color bar-segment LED time displays with a ten character user changeable multi-color dot matrix digital zone labels & dates below & a 7 color moving message display. The moving message display is either 2.0” or 4.0” single line display. The 7329 models display 9 time zones.

Each 7329 clock comes standard with an OCXO oscillator, which is accurate to .06 seconds per year or 1 second over 20 years.

For easy clock management, an infrared (IR) remote control is included with every 7329 model. An optional BRG Time Commander IR Touch Pad Remote control to use with all of your time zone clocks.

Every 7329 model includes your choice of an Ethernet or USB interface for easy time zone parameter control.

Features:

- OCXO oscillator accurate to .06 seconds per year
- 1.8” or 2.5” user changeable multi-color bar segment LEDs for displaying time
